

NOAA Custom Charts is the new online tool that NOAA created to replace paper charts. NOAA Custom Charts are based on Electronic Navigation Charts but allow the user to customize charts for any area desired. The Charts are highly customizable. This course will explain how to create a custom chart, how to get it printed, how to create a Chart Catalog and update options for Local Notices to Mariners.

Topics:

- What is NOAA Custom Charts
- Creating Custom Charts with NCC
- Printing Options for NOAA Custom Charts
- Creating your Personal Chart Catalog and how to update it
